## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 11, 2006 has been entered.

### ***Election/Restrictions***

2. Newly submitted claims 21-40 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

a. Restriction to one of the following inventions is required under 35 U.S.C.

121:

I. Claims 1-20, drawn to conditional branching, classified in class 712, subclass 234.

II. Claims 21-40, drawn to power conservation, classified in class 713, subclass 320.

b. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination II has

separate utility such as powering down a part of the system, such as an instruction cache, to conserve power. See MPEP § 806.05(d).

3. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-40 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. Claim 1 recites the limitation "the executed instruction" in line 3. There is insufficient antecedent basis for this limitation in the claim.

7. Dependent claims 2-7 are rejected for incorporating the defects of independent claim 1.

***Response to Arguments***

8. Applicant's arguments, see page 31, line 16 to page 35, line 7 of the response, filed September 1, 2006, with respect to claims 1-20 have been fully considered and are persuasive. The prior art rejection of claims 1-20 has been withdrawn.

***Allowable Subject Matter***

Art Unit: 2181

9. Claims 8-20 are allowed.

10. Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
